

PHP Software Engineer

Why we love working at Helium:

Our motto is be honest, take pride, and do amazing work. We put our team first and deliver results to our customers.

Helium was founded by friends. We believe in doing the right thing, treating people well, and building a company where we would want to work. We hire, promote, and reward based on performance. We don't play politics or favorites. We work hard and have fun along the way.

We take a lot of pride in having worked with clients in a wide range of industries, including Healthcare, Retail, Field Service Management, and Sports Entertainment.

About the gig:

We are looking for a process-oriented engineer that is ready to help solve complex problems, while working independently under the direction of a Senior Developer. Working alongside industry veterans, we expect a strong work ethic and a deep desire to learn.

The experience we expect from a PHP Software Engineer:

- PHP / Laravel (2-3 years)
- Unit testing implementation
- Post production application support
- Participate in structured code reviews
- Project and task time estimation
- Collaborate with clients to produce product designs and requirements

A few of the perks:

- You will be eligible for our 100% covered health, dental and vision
- You will have the opportunity to build and shape your own team with a leadership team that truly cares
- You will be joining a company experiencing rapid growth
- Enjoy free snacks and coffee every day along with a free weekly lunch
- You will actually have decision-making power

How to Apply:

Email your resume to careers@heliumservices.com or call (678) 882-5333.
